REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Claims 1-14 and 17-19 are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims. As to claims 1-10, the prior art of record does not teach executing a race by initiating a concurrent download of the file over each of the direct route and the set of one or more alternate routes; and as the result of the race, determining an optimal route between the edge server and the content provider original server. As to claim 11, the prior art of record does not teach determining an optimal route between the edge server and the content provider origin server as a function of the concurrent downloads.

As to claims 12-14, 17, 19, the prior art of record does not teach wherein the performance metric test is a download of a file, and wherein the file is an object being requested by an end user or a test object; determining when a given number of bytes of

Art Unit: 2616

the file have been received over a given one of the potential routes and for terminating the performance metric test with respect to other of the potential routes when the given number of bytes of the file have been received. As to claim 18, the prior art of record does not teach wherein the performance metric test is initiated if no such test has occurred in a given first time period, if a given second time period has elapsed since a last test, or if a given number of requests for a file have been received at the server machine without a test being run. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
